

Hvordan aktivere brannmuren på Olex.

Gå til vedlikehold i oppstarten, eller ta snarveien fra Olex ved: Ctrl + Shift + Høyre museknapp.

```
/home/olex% su
Password:
[root@olex olex]#
```

Pek med musen i vinduet. Bli “root” ved å skrive “su”, og passordet: fiskebat

```
/home/olex% su
Password:
[root@olex olex]# system-config-firewall-tui
```

Åpne brukergrensesnittet for brannmur ved å utføre: system-config-firewall-tui

```
system-config-firewall

Firewall Configuration
-----
A firewall protects against unauthorized
network intrusions. Enabling a firewall blocks
all incoming connections. Disabling a firewall
allows all connections and is not recommended.

Firewall: [*] Enabled

[OK] [Customize] [Cancel]

<Tab>/<Alt-Tab> between elements | <Space> selects | <F12> next screen
```

Bruk mellomroms-tasten for å aktivere brannmuren.

```
system-config-firewall

Firewall Configuration
-----
A firewall protects against unauthorized
network intrusions. Enabling a firewall blocks
all incoming connections. Disabling a firewall
allows all connections and is not recommended.

Firewall: [*] Enabled

[OK] [Customize] [Cancel]

<Tab>/<Alt-Tab> between elements | <Space> selects | <F12> next screen
```

Bruk Tab-tasten for å gå til “OK”.

```
system-config-firewall

Warning
-----
Clicking the 'Yes' button will override
any existing firewall configuration. Are
you sure that you want to do this?

Please remember to check if the services
iptables and ip6tables are enabled.

[Yes] [No]

<Tab>/<Alt-Tab> between elements | <Space> selects | <F12> next screen
```

Velg “Yes” for å avslutte.

```
/home/olex% su
Password:
[root@olex olex]# system-config-firewall-tui
[root@olex olex]# reboot
```

reboot
